Staff/support: MOADEfy train?coach?contract - guide moadeify. Compliance: my compliance · set trading country ?

Guide

1. Register

Web: open /businesssite/register. Mobile: install TA8 / RC1 (or iOS hub) from Powered Apps, create profile with phone + selfie.

Watch the how-to reel on the homepage section #how-to-register.

Countries & compliance (required)

- Country of birth - always required for every user (person).
- Trading country - required for 3% and monthly traders. Defaults compliance (company/tax/payroll rails) to that jurisdiction.

Learners / Education may leave trading empty, or set it only when different from birth.

- When birth ? trading, choose trading country only (default) or both (dual compliance - e.g. trade in SA with CIPC/SARS and still track home-country obligations).
- South Africa in scope: informal traders without CIPC + SARS tax number may be paid as employees (PAYE/UIF). Non-SA trading countries use that country's company/tax rules - SA PAYE is not forced.

You can change trading country later in chat: set trading country to Kenya · my compliance · compliance dual.

2. Log in on the web (returners / multi-profile)

- Homepage CTA: Photo login (web) ? /businesssite/login
- Enter phone, industry, occupation, mother tongue, and a live selfie. Support compares to your profile photo and may grant, block, or report fraud.
- When granted you get a timed browser session and open full chat. Trading profiles may see a small service-fee disclosure; optional emergency security opt-in is available.
- Or keep the homepage QR open and on mobile say login to web / scan qr (see guide mobile).

3. Logout

In full chat header use Logout (or open /businesssite/logout). You return to the public homepage with a ?logged out? notice - not stuck on the login form. Sessions also expire automatically after the configured minutes.

QR-linked browsers can also use Unlink phone to disconnect only the QR link.

4. Accessibility on every route

A fixed bar at the bottom of website pages lets you:

- Choose Language (preference stored for all routes)

- Read page - text-to-speech of the main content
- Voice nav - say commands like ?go home?, ?photo login?, ?open chat?, ?roadmap?, ?read page?

Details: guide languages.

5. First chat commands

- help or guides - this menu
- my profile / my compliance - identity and jurisdictions
- show me apps - catalog
- open mall - eShop atrium
- email help - mail from chat
- login to web / scan qr - link mobile profile to browser chat (see guide mobile)

6. Leave any wizard

Say stop or cancel anytime. Say continue to stay in the current flow.

Chat commands

help · guide · how to register · how-to videos

Exit multi-step flows

Say STOP or CANCEL or EXIT at any time. Say CONTINUE to stay in the current wizard.

How-to videos

Homepage reel: <https://businesssite.online/businesssite#how-to-register>

Chat: say "how-to videos" or "guide getting-started"
